

## Boost maths fluency throughout your school with Sumdog

- Set targeted, differentiated maths practice in minutes
- Identify misconceptions with ready-made informal tests
- Motivate children with multiplayer maths games
- Build confidence and reduce maths anxiety as children compete at their own level
- Inspire friendly competition and excitement with our termly contests!

*We know short bursts of just 10-15 minutes on Sumdog each day can have a big impact."*

Neil Kelsall, National Lead Practitioner for Oasis Community Learning

## What makes Sumdog different?

- Unlike other maths practice platforms, Sumdog's games work independently from the questions. This means children can choose their favourite game, keeping them engaged and wanting to practise maths!
- The high-quality games can be used to practise any maths topic at any level. Supporting those who need extra help and challenging the more able, Sumdog's adaptivity ensures pupils are always working at the right level.
- Sumdog covers all areas of the National Curriculum – not just times tables and number bonds! The updated curriculum alignment makes it even easier to set personalised practice that links directly to what you have been teaching in class.

## Proven to improve fluency

Sumdog helps to accelerate pupils' progress, develop fluency and build confidence.

Using Sumdog for 30 minutes a week improves children's fluency progress at almost double the rate.

This 2019 study was published in the *Impact Journal of the Chartered College of Teaching*.

## Fun online maths contests

Sumdog hosts termly regional contests, as well as bespoke contests for schools in multi-academy trusts. Bring everyone together and create a sense of excitement as your pupils compete with their peers down the road or across the trust!

Questions are personalised and scores are based on accuracy, so everyone competes at their own level – and any class can win. Will you be champions?

## Personalised learning

Set targeted, differentiated maths practice for individuals or small groups in minutes.

The questions are written for the National Curriculum and the White Rose Maths scheme of learning, so they directly match what you've been teaching in class to support a maths mastery approach.

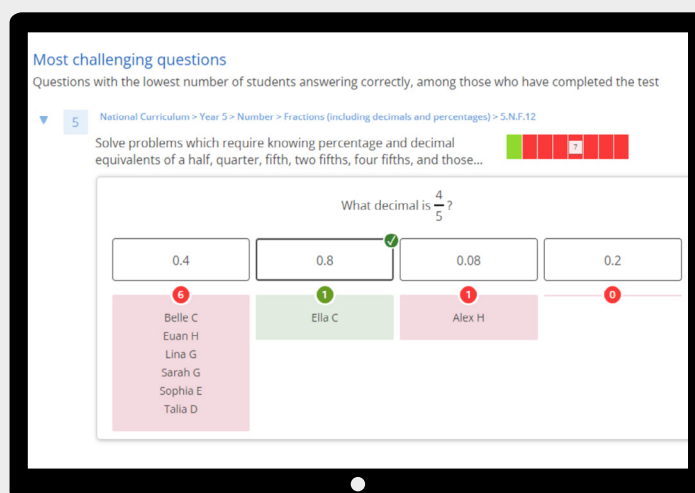

Simply select the area you've been working on and set focused, auto-marked questions. Or let Sumdog's powerful adaptive engine guide children through the topics, always ensuring they're working at the right level – you choose!

## Low-stakes tests

Informal, quiz-style tests and easy-to-digest reports give you a clear picture of your class' performance.

- Pinpoint gaps in understanding with a bank of ready-made tests or create your own
- Provide a stress-free setting for children to do their best with extra rewards for effort
- View data in real-time with easy-to-digest overview reports
- Repeat tests to check progress with our new 'Change over time' feature

## Engaging and motivating for children

We know that kids who enjoy their learning are more likely to practise and therefore more likely to improve. That's why we provide every child with engaging educational practice and a motivating rewards system!

- Over 35 interactive games for every learner, with new ones being added all the time
- An inclusive and personalisable avatar, featuring 24 different skin tones, religious wear, and options for children with disabilities
- Correct answers earn coins, which children can use to buy items for their house, garden, avatar, or friends

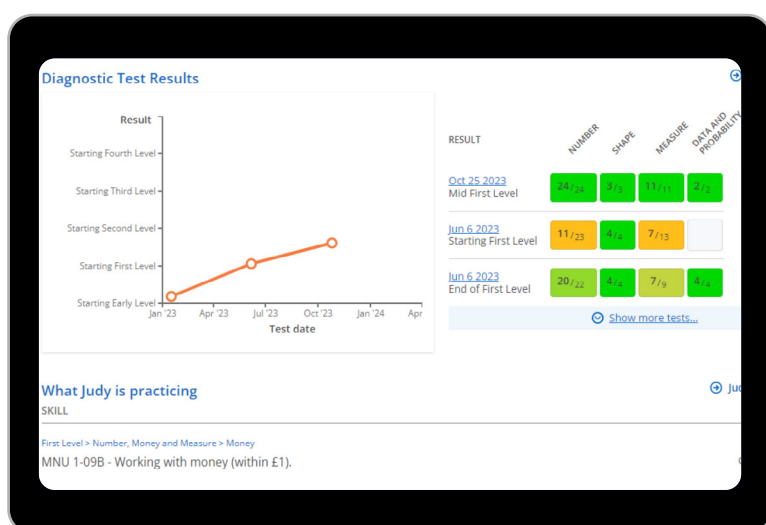

## Maximising pupil premium funding effectively with Sumdog

Sumdog's mission is to narrow the attainment gap by helping every child reach their full potential. It boosts the confidence of the disengaged while giving teachers the tools to identify and nurture those that need extra support.

Our friendly team are available to support you in implementing a personalised Pupil Premium strategy:

- Diagnose and identify the challenges faced by disadvantaged pupils
- Use evidence to identify appropriate and effective responses
- Develop a plan for using your pupil premium to maximum effect
- Implement your strategy
- Evaluate and sustain your strategy

**Sumdog offers an affordable solution for maths practice, formative assessment and homework.**
